

EP1366 - Airborne Power Supply Unit

- **Compact Design using SMT**
- **Fan Cooled**
- **Short Circuit Protection**
- **Over Voltage Protection**

Outstanding Quality, Value and Customer Service

GENERAL SPECIFICATION

- ◆ 115V 400Hz Single phase to BS3G100 & Mil-Sd-704A
- ◆ Output 28VDC @ 15A
- ◆ Input & Output EMC to Def-Stan-59-411
- ◆ Efficiency >79% at Full Load
- ◆ 200mS Hold Up
- ◆ Input, Output & Over Temperature Bite
- ◆ Over Temperature shutdown
- ◆ Weight: <3.25Kg
- ◆ Designed for Airborne application
- ◆ Custom In-house Design – Mechanical, PCB, Electrical & Electronic
- ◆ Dimensions: 280 x 115 x 110 (mm)
