XCEL POWER ACHIEVE ISO9001:2000 CERTIFICATION

XCEL Power Systems have achieved a successful transition to ISO9001:2000. Certification was confirmed on 24th September 2003 following implementation of a revised Quality Management System at their Ashford, UK manufacturing facility.

Commenting on the successful completion of the transition, Richard Weller, General Manager XCEL Power Systems Ltd said, "We aim to support our customers with the highest levels of Quality and Service, and we are therefore delighted with the successful transition to the new standard".
